EXPERIENCE

Freelance Full Stack Developer

Upwork

Nov 2024 – Present Remote

- Built and optimized high-performance Flutter apps with adaptive UIs, custom animations, and clean, modular architecture.
- Developed scalable backend integrations using Firebase Auth, Firestore, FCM, and analytics.
- Collaborated in Agile sprints with designers and backend engineers, improving delivery efficiency by 25%.
- Enhanced app reliability, responsiveness, and ensured stable 60 FPS performance on production builds.

Full-Stack Developer

Software Technology Park

May 2024 – Dec 2024 Islamabad, Pakistan

- Developed an AI-powered Sports & Inventory Management System using Flutter, Firebase, and Python backend, focusing on real-time data sync, offline support, and secure API integration.
- Implemented BLoC architecture, caching layers, and state optimization for smooth UX during high data operations.
- Conducted performance profiling with Flutter DevTools, minimizing memory leaks and improving rebuild times by 30%.
- Led front-end module design and collaborated closely with backend engineers on end-to-end system architecture.

Full-Stack Developer

ITSOLERA PVT LTD

Jan 2024 – Feb 2025 Islamabad, Pakistan

- Delivered cross-platform mobile apps integrating Firebase, MySQL, and REST APIs, focusing on real-time synchronization and secure transaction flows.
- Designed offline-first logic and optimized app performance for large-scale user operations.
- Deployed and maintained applications on App Store & Play Store, achieving 4.8+ average ratings.

SUMMARY

Results-driven Full-Stack Developer with 3+ years of experience building high-performance web and mobile applications using Flutter, React, Node.js, and Python. Skilled in developing scalable, secure, and maintainable systems, including RESTful APIs, real-time integrations, and cloud-based solutions on AWS and Google Cloud. Proficient in state management (BLoC, Provider, MVVM), clean architecture, and modular design for both frontend and backend systems. Experienced in leading end-to-end project delivery, optimizing application performance, and collaborating in Agile teams. Currently based in Jeddah, Saudi Arabia, with a transferable visa, open to on-site roles in Riyadh.

EDUCATION

Bachelor of Science in Software Engineering

2018 - 2020

University of Poonch Rawalakot

- Final CGPA: 3.52/4.00

Intermediate Of Computer Science (ICS)

2020 - 2024

Wadi e chinar Public School and College khuiratta

- Final Percentage is 70.36%

AWARDS

Mobile Application Development

Jul 2022 -Dec 2022

IT and Excellence Center Rawalakot

TECHNICAL SKILLS

Languages:

Dart, JavaScript (ES6+), Python, C++

Frameworks & Libraries:

Flutter, Node.js, React, Express.js, FlutterFlow

Full-Stack & Real-Time Systems:

- Development of offline-first and real-time applications with data caching and synchronization
- Real-time communication using Firebase Realtime DB, WebSockets, MQTT
- Secure API integration and RESTful service development

EXPERIENCE CONT.

Full-Stack Developer

FIRST LIGHT

April 2023 – April 2024 Islamabad, Pakistan

- Developed IoT-integrated Flutter apps using MQTT and Firebase for real-time data management.
- Optimized stream handling, background processing, and UI rendering for large-scale applications.
- Worked with backend engineers to design secure API structures and ensure scalable architecture.

Junior Flutter Developer

CSERA PVT LTD

Dec 2022 – Mar 2023 Islamabad, Pakistan

- Assisted in developing hybrid Flutter apps, focusing on UI consistency, reliability, and performance optimization.
- Contributed to integration of native Android/iOS plugins for smooth hardware communication.
- Reduced crash rates by 15% through improved state management and debugging workflows.

UI/UX Designer

NUEXUS TECHNOLOGIES

Feb 2025 – June 2025 Islamabad, Pakistan

- Designed interactive dashboards and responsive web/mobile interfaces using Figma and Adobe XD.
- Translated motion designs into Flutter components and animations.
- Collaborated with developers to maintain 1:1 design-to-code accuracy and cross-platform responsiveness.

Web Developer

CODE ALPHA

May 2024 – Aug 2024 India, Lucknow

- Built responsive web interfaces using React, optimized for performance and accessibility.
- Applied modular component patterns and integrated Flutter Web concepts for cross-platform consistency.

TECHNICAL SKILLS CONT.

State Management & Architecture:

BLoC, Cubit, Provider, Riverpod, Clean Architecture, MVC, MVVM, SOLID Principles

Performance & Optimization:

Flutter DevTools, Firebase Performance Monitoring, Dart Observatory, Memory profiling, frame rendering optimization, lazy loading, widget rebuild control

Backend & Cloud:

Firebase (Auth, Firestore, Cloud Functions, FCM), Node.js REST APIs, AWS (EC2, S3), Google Cloud, MongoDB Atlas

Databases:

Firebase Realtime DB, MySQL, MongoDB, SQLite

CI/CD & DevOps:

GitHub Actions, Fastlane, Automated Build Pipelines, Environment Configuration, Version Management

Tools & IDEs:

Android Studio, Xcode, VS Code, Postman, Git, GitHub, Figma, Cursor AI

UI/UX & Animation:

Responsive UI Design, Adaptive Layouts, Custom Animations, Figma Prototyping, UX Testing, Accessibility Optimization
